Double Pass (half rate)	4	4,5 m	K½		L		L½	

Applicable for the following ICL spreaders: **AccuPro One**

	Slider plate	Spread width	Rate and Setting					
			20 g/m ²	25 g/m ²	30 g/m ²	35 g/m ²	40 g/m ²	45 g/m ²
Single Pass	Closed	2 m		13	14	15	16	
Double Pass (half rate)	Closed	2 m		10		11	12	

The spreader settings are guidelines only. The spreader should be calibrated prior to application to ensure accuracy. The spreader settings are based on a walking speed of 5 km/hour. Walking faster or slower than 5 km/hour will alter the spread width and application rate. Exact rates are dependent upon the spreader itself and the accuracy of the person operating it.
