

## Product Information

# Nutrivant<sup>®</sup>

## Booster 8-16-39+ME+FV

### Long-lasting technology for improved foliar nutrition

ICL's Nutrivant product range consists of fully soluble formulations that contain macro and micronutrients to precisely meet the crop's needs. The Nutrivant formulations are designed for foliar application and contain our exclusive additive, Fertivant.

Fertivant's advanced and persistent delivery system, specially developed for foliar application, works in three ways:

- it guarantees the spray application delivers a homogeneous distribution of microdrops spread across the surface of the leaves,
- it enhances the permeability of the cuticle to active substances, and
- it securely fixes the active ingredients to the surface of the leaves, delaying evaporation.

### Product advantages

- Dependability
- Chloride-free, high safety
- Enriched with microelements
- Fully soluble
- Contains surfactant
- Special analyses to improve fruit quality
- Made with clean materials
- ICL's tight control of ingredients and manufacturing ensures consistent high quality.

### Specific usage

Application of Nutrivant Booster 8-16-38+ME+FV during the month post bloom is most effective in increasing fruit size.

### Application rates

- For vegetables, stone fruits, and vineyards, apply 0.5-1.0% (with a 14 day interval),
- For subtropical fruits (e.g. citrus, avocado, and mango) and olives, apply at 2.0-3.0%.

#### Product characteristics

Maximum solubility:  
480 kg/100 L water (25°C)  
EC value: 0.99 mS/cm (at 1 g/L)  
pH (1%): 4.9  
Packaging: 25 kg bag (PE)  
Item code: 6108163901

#### Guaranteed analysis

Total nitrogen (N)	8%
Nitrogen (NO <sub>3</sub> -N)	8%
Phosphorus (P <sub>2</sub> O <sub>5</sub> )	16%
Potassium (K <sub>2</sub> O)	39%
Iron (Fe)*	0.08%
Manganese (Mn)*	0.04%
Molybdenum (Mo)	0.005%
Zinc (Zn)*	0.02%

\*Chelated by EDTA
